--	------

Fees may be charged for additional services. The schedules of fees for such services will be made available to you in a separate disclosure or in the agreement for the additional service.

You understand that our fees and charges are developed as a whole, taking into account our overall operating expenses, the direct expenses associated with the various services for which fees or charges are imposed (to the extent that these expenses reasonably can be segregated) and profit margins both from the particular services to which the fee or charge is associated and on an overall basis. You agree to pay these fees and charges knowing that (1) they are not intended merely to reflect the actual costs for our performing the particular service, (2) our profit margin may not be the same for all services, and (3) profit from some services may subsidize other services with a lower profit or performed at a loss to us.
